

REMARKS

In the Office Action of October 22, 2004, the Examiner rejected the pending claims 1-3. Upon review, Applicants finds the original claims to be overly broad and poorly written.

By this Amendment, Applicants have amended claims 1-3 and added claims 4-20 to clarify the invention. By these amendments and additions Applicants feel that the uniqueness of the invention is expressed.

In view of the foregoing remarks, Applicants submit that the claimed invention is neither anticipated nor rendered obvious in view of the references sited against this application. Applicants, therefore, requires the Examiner's reconsideration and reexamination of the application, and the timely allowance of the pending claims.

Respectfully submitted,

Dan Bress
